## About Fair Play

Within a five-mile radius in the heart of the Sierra Nevada Foothills of California, the premium wine-growing region of Fair Play is comprised of family-owned wineries that take pride in their vineyards, their wines, and their customers.

Fair Play is distinguished by its deep, well-drained decomposed granite soils and 2500ft elevation that brings cool nights to balance warm days. Over the past three decades of grape-growing, Fair Play has developed a reputation for high quality wine grapes that yield flavorful, intense wines from an amazingly diverse range of grape varieties.

Located between Sacramento and South Lake Tahoe and just a short drive from San Francisco, Fair Play is the ideal destination to take in spectacular views and beautiful scenery while enjoying highly flavorful mountain-grown wines.
